Dear [Redacted]:

STAT

As you complete your summer assignment with Engineering Support Group's Field Engineering Division, I would like to thank you for the help you have provided. Your willingness to assume responsibility, to perform any task and your professional execution of all work indicates a strong potential for future success in any discipline.

Being new to FBIS and with unknown capabilities restricted our flexibility in defining initial tasking. But your excellent work record supports significantly more responsible tasks in any future work with FBIS. I trust your experiences with FBIS over the summer provided you with a solid background of the mission of our office and complexities of every day operations.

Best of luck as you start your sophomore year at Virginia Commonwealth University and in your future endeavors.

Sincerely,

STAT

Deputy Director

DDS&T/FBIS/ESG/FED,
